

TM 780 Buoy

780 mm Dia Marker Buoy

Tritonbuoys has developed a diverse selection of navigation buoys that adhere to rigorous quality standards and boast a proven track record of reliability. Each buoy is crafted from premium UV-stabilized virgin polyethylene and filled with closed-cell polyurethane to prevent water ingress if the outer layer is damaged. This design ensures exceptional performance and long-lasting durability.

Product Code: TM 780

The Tritonbuoys TM780 marker buoy is a versatile solution for various needs, including lateral marking, restricted areas, special zones, and aquaculture. The TM780 is specifically designed with an increased focal height to enhance its visibility in shallow water settings.
