

TM-DF Dredging Floats

Tritonbuoys have developed a range of dredging pipe floats made from UV-stabilized polyethylene and filled with closed-cell polyurethane. This construction enhances both strength and durability, ensuring reliable performance and longevity in demanding dredging environments.

Product Code: TM-DF

Tritonbuoys offers dredging floats in a range of sizes to accommodate both polyethylene and steel pipes. These versatile floats can also be used to provide additional buoyancy for other cables, pipes, or barriers, making them suitable for various applications requiring enhanced flotation.

Features:

- Corrosion and uv resistant.
- Easy installation.
- High impact resistance.
- PU foam filled to retain buoyancy in the event of perforation.

TYPE A: HDPE Pipe Dredging Floats

Product Code	ID (mm)	OD (mm)	Length (mm)	Buoyancy* (kg/set)
TM-DF-110	110	300	450	18
TM-DF-160	160	400	600	45
TM-DF-220	220	510	800	100
TM-DF-250	250	600	1000	175
TM-DF-315S	315	960	650	335
TM-DF-315L	315	900	1100	480
TM-DF-355	355	1000	1200	660
TM-DF-450S	450	695	1200	185
TM-DF-450L	450	1100	1200	700
TM-DF-500	500	1100	1350	850
TM-DF-630	630	1250	1200	875
TM-DF-710	710	1400	1700	1400
TM-DF-800	800	1650	1800	2250
TM-DF-900	900	1650	2000	2300

* In addition to the standard type A and B sizes above we are able to manufacture dredging floats to suit specific customer requirements.

* Buoyancy is an approximation

* Specifications subject to change or variation without notice

** Warranty subject to terms & conditions

TYPE B: Steel Pipe Dredging Floats

Product Code	ID (in)	OD (in)	Length (in)	Buoyancy* (kg/set)
TM-DF-18	18	48	58	1150
TM-DF-20	20	48	61	1200
TM-DF-22	22	52	64	1430
TM-DF-24	24	55	67	1520
TM-DF-28	28	60	72	2200
TM-DF-32	32	72	76	3200

* Accessories: Galvanised fasteners are provided with the float as standard. SS316 or other grades are available on request.

* Specifications subject to change or variation without notice

** Warranty subject to terms & conditions
