

TM-DP Dredging Pipes

Tritonbuoys manufacture a range of dredging pipes made from high-density polyethylene (HDPE). These pipes are designed to meet the rigorous demands of dredging operations, offering superior durability, flexibility and resistance to abrasion and impact. The high-density polyethylene material ensures that our dredging pipes are lightweight yet strong, providing exceptional performance and longevity even in challenging conditions.

Product Code: TM-DP

Features:

- Corrosion and uv resistant.
- Easy installation.
- High impact resistance.
- Some natural buoyancy
