

Floats
TMF-420

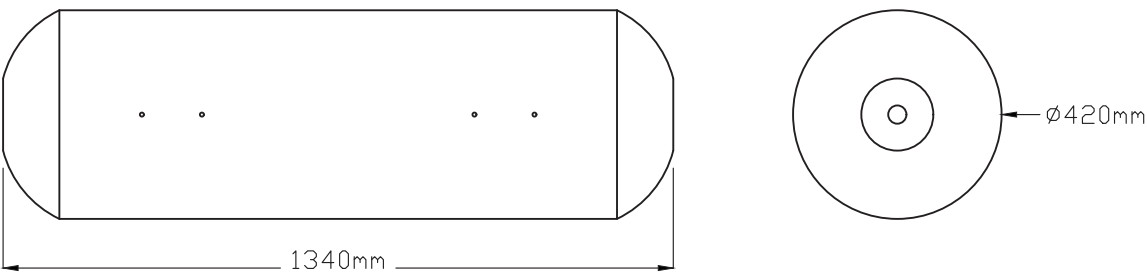

Tritonbuoys floats are constructed from UV-stabilized polyethylene, guaranteeing durability, watertight integrity, and suitability for marine environments. This high-grade material ensures that our floats withstand harsh conditions and maintain their functionality over time, making them ideal for various marine applications.

Product Code: TMF-420

The Tritonbuoys TMF-420 are perfect for a range of demarcation applications, including swimming areas, jellyfish barriers, security barriers, and more. These versatile floats are designed to provide effective separation and marking in diverse environments, ensuring safety and clarity for users.

Features:

- Highly durable.
- Sturdy construction.
- Range of sizes available.
- A variety of high visibility colours.

	TM-F 420
General Characteristics	
Available Colour	Green, Red, Yellow, White as per IALA; Customisation Available.
Total Float Volume	170 L
Nominal Draft	80 mm
Total Reserve Buoyancy	150 kg
Operational Buoyancy	65 kg
Draft, Maximum	210 mm
Physical Characteristics	
Material	Rotationally- Moulded UV Stabilized Virgin Polyethylene
Wall Thickness	5-6 mm
Filling	Closed Cell Polyurethane (Density > 45kg/m^3)
Diameter	420 mm
Total Length	1340mm
Net Weight	23 kg
Certifications	
Warranty	1 Year
IP/Trademark	TRITONBUOYS® is a registered trademark
